They are one of my favorite 'electronic' bands (I'm just calling all music that uses electronic stuff electronic instead of all their fancy names), but I still like things like pg.lost, The Evpatoria Report, Sigur Ros, and so on a lot more than them. It's just for me so many of these post-rock bands have some of the most powerful song I've ever heard, and I like them the most.

Oh man that's annoying.

Akiramujina, BOat.

swag.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.
