Monkey 262 had a BIG bag of bananas in the freezer. When he took it out to make banana bread, it fell on him and crushed him to death.

Don't assume we're Communists

Everything you always wanted to know about Fatatatutti but were afraid to ask

Monkey 259 dug too deep into the "TikTok Incident" of Monkey 5018 and was promptly brutally eviscerated by the government.

Monkey 255 realized that just because a monkey "disappeared" doesn't mean they were confirmed dead, meaning that maybe some of the previous monkeys who "disappeared" might be still alive. Monkey 255 soon got to work investigating, though they too would disappear. Their decapitated head was still left on their table, though, to show they were dead for real.

Monkey 254 was fine, they just became a hermit but were never seen again. However, there is evidence that 254 is living to this day.

Monkey 252 thought it would be a good idea to climb up to the tallest tree and look up off of it to try to find where all of their other monkey friends went. However, they fell down onto a prickly bush from the top.

Monkey 250 "Bullet Ape" died after accidentally being launched by a giant, experimental rail gun at a velocity of 152,7776m/s, what a shame.

At least he was able to glide for the few seconds he had left to live.
