What you mean Last.fm bugged? I listened to 23 Lakupaavi songs for the first time with scrobblr and it says I listened to 39 songs. Mmkay.

Lamentations of the Ashen - To Walk Inside Empty Places

Now two songs that are together longer than the previous 23 ☐

All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Mine just bugs out and doesn't seem to even acknowledge songs under a minute long. Listened through a band with 140 songs and it only scrobbed 120 because too many were under a minute.

Death Grips-I've Seen Footage

I've seen the same problem, but with songs under 30 seconds. Aaaaand now it says again there was an error, inb4 this song gets double or triple scrobbed even though I listen to it just once. Oh well.
