PMT/Early FT - Decopunk. Zitravgrad is a crowned republic in a planet somewhere else in the universe. The formerly wartorn nation keeps a facade of normalcy and order while enjoying the societal and cultural decadence that marks the new Roaring Twenties. The paranoid authoritarian government tries its best to uphold order in the face of uncertainty, while its people want nothing more than a breathing space. A deal that works, but maybe not in the long run. | [My NS-Related Art](#) | Hehe bad meme as flag

Somewhere in Spain or in South America.

  **The Confederate States of Kannestad**  

A culturally diverse direct democratic confederacy located in present-day Cascadia. Recently acquired its independence in 1986, Kannestad is now a rising power in the international world under its socialist libertarian government. Set in the 1990s where technology is advancing at a rapid rate and alternate media flourishes than ever before.

Voice of Kannestad: No news for today...
