"I will peg you to death" - Mega Trollge

Ancient Trollge was killed in March of 2021 but returned in November. The god of trolling, Mega Trollge, has laid dormant in the city for thousands of years as a collection of trolls has been spread throughout history. Recently, though, amounts of trolling have crashed, leaving the event "The Ancient Trollge" which is on the 2nd of September every year.

Monkey 1235, after hearing 1236's death, decided to assume 1236's identity. This, however, caused the Monkey Time Guard to get confused, as they thought 1236 was another one of the time skipping monkeys, causing them to think there were two in the timeline (example: Monkey 1261). The MTG couldn't let a time skipper live, and thus executed 1235 on accident

Tired of having to say this: The Kingdom of Voidstania is not a kingdom. It is a communist dictatorship with a weak democratic senate under the guise of a monarchy. Normal country stuff.

Also, NS stats and policies are not canon (Because I have a tendency to click the wrong options and give myself dumb policies)
