The Philippines and China are united in this universe. Kim Chiu is the next heir to the throne, and she recently survived an assassination attempt (some people were firing on her van) prior to attending a flag ceremony at a university.

*The first sound of the future, the society of the future
Japan missed the software revolution. Hatsunia embraced it.*

For their time, they are quite socially progressive. Implementing an early form of direct democracy, limited suffrage, and constitutionalism.

The Avant-Gardist State of Patagonia ~~~ *Gauchos and Mapuches, orgies and parties, avant-garde art, futurism, syndicalism, the New Man, general strikes, the glorification of violence, spiritual nationalism, esoteric occultism, CIA spooks, Spartanian homosexuality, public sodomy, and more*

Triomphe du Surréalisme (1968)

- There are many things said about Patagonia but few actually know what goes on behind the Andes mountains. Tales of human depravation and man's inner darkest self run wild. A place where avant-garde culture flourish and the artist don't fear the censor. Where all live bold and free under the gaze of the Patron. Yet all dreams will come to an end soon...
- Not expecting an essay. Just a couple of sentences that shows that you know my work well enough

Most people in Coryan are produced with genetically modified cloning and sometimes even resurrection. They are called "magical resource generators" by foreigners and other civilizations. Interesting...

I didn't really learn anything other than that they're apparently an Empire that dominates all of East Asia. Like, I'd love to say more, and your devotion to your constructed language is admirable, but I wasn't able to read a single damn thing. Please keep it the way it is, but provide an English translation, please?

Anyways, to the next nation, I'd recommend you check out [this factbook](#). I just finished writing it today.

We do not use NS Stats, policies, or otherwise. Please only judge us by what is in our factbooks.

An alternate history version of China in which the alliance between the Kuomintang and the Communist Party never broke down, eventually resulting in a federalized, democratic China. Though one of the world's strongest economies and an emerging superpower, China continues to suffer from high rates of income inequality, an overreaching and sometimes corrupt government, and cultural issues that continue to persist despite the efforts of many reformers over the decades. Most factbooks are still an active WIP.

What I found out: Chiang got the treatment of Wang Jingwei for collaboration with Japanese in this timeline, but unlike Wang who died from illness in Japan, Chiang was executed in China. Puyi's story actually remains pretty similar, but while Mao's policies might not have had as destructive effect on China, he still wrote political theory which was popular in circles, and the Mao family is still quite powerful.

The "barbarians" helped him and he realized those people he was going to fight against were innocent, so he defected from the Roman Empire and started his own country.
