Great album

I kept pondering re-listening to it recently, so I finally got to actually re-listening to it.

It is definitely good.

What made me finally listen to it again is my friend saying for him today was a Deftones kind of day.

Change (In the House of Flies) is my most listened to song on Last.fm currently (Or more like Spotify), but Deftones as a whole is far from being the

Deftones-RX Queen

Definitely the best Deftones album, though it took a while for it to click for me. Not as long as Diamond Eyes mind you.

It is the only one I've heard. It was the most highly received, so I listened to it. Not sure if I care to listen to more beyond this or not.

Crysis 2 Soundtrack-Hans Zimmer-Crysis 2 Intro

I forgot about this song until I started up Crysis 2 for the first time.

If you like it you should. Deftones fans are a bit cultish, and they're often divided on what their best album is. Saturday Night Wrist, Around the Fur and Diamond Eyes all get mentioned a lot.
