A North Korean dictator.

This country does not follow my beliefs, but rather something I would find interesting.

Political Compass: -5.75, -4.87

Prorescia is a tourist friendly nation that has some of the most beautiful forests in the world. It controls a small part of current day Brazil about the size of

French Guiana and is largely rural because of that with only 3 major cities, Santo Tablo, Pacifil, and Consanto Praia. The Government is Democratic and led by a Council who make most decisions. However, 5 democratically elected representatives can at any time call for a lack of faith vote which would impeach a current council member. The lack of faith vote is voted on by the populace which number in the thousands.

Ensuing nuclear conflict over who gets to keep the invaded land.

Hi, it's been a while. If you're seeing this then it means what I'm working on is not quite done yet. You can still read my old stuff but it's probably not canon anymore. I'll try to get something up soon. It may or may not involve wizards.

China faces a crisis over Tibet, and thus South Korea sneakily annexes the land.

Seriously, again?

Civilization of bacteria who call themselves humans on a distant planet, that is.

Of course, only the bacteria “humans” on the right side of the planet, not the left. Perspective is the asteroid before the asteroid redirection.

Uhh, railgun jams.
