If you haven't read our factbook; there reason we're as reactionary as we are, the reason we hate imperialism, a good number of other races, and even why we exist as a militant church, is because our homeland was colonized by xenophobic racists, who later went on to kill a highly respected member of our community. We don't even want to invade anyone. We just want our continent back.

We do not use NS Stats. Seriously, they make no sense for this particular nation.

Set in an alternate year 1127, the Nordic Commonwealth is a hegemonic republic ruled by a warrior aristocracy with an economy based on raiding and trade.

Sorry for the long wait, but my new nation is still a slow work in progress. Completely new map than this one has.

Things to keep in mind:

- This isn't a single nation, but a whole planet full of many nations. I will usually reference a certain nation when posting.
- The flag being used is just to represent that it is a planet, it is not used at all in the 'canon', as there is no one flag for the planet. Instead I chose to just use an image of the planet.
- I've referenced the prequels 124 times on F7.
