Down to 24 bands left to listen to...Damn, almost in the teens.

Of course, there's like 5 on my mind I could easily add to my list, but I'll do that later...

Mastodon-Hand of Stone

Definitely like that album more then the previous

Mastodon-Blood and Thunder

And if this songs anything to go after, it will be better, as well.

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
