The United Kingdoms of Britannia in the Fallen London and Sunless Sea universe.

According to F7, our medics without guns are more terrifying than the dreadnoughts, drake mages, rage mummies that feel no pain, or the griffin snipers. Plague doctors get no love.

The Fallen in our name does not refer to the fall of the British Empire, it refers to London falling a mile down into the Earth into a world where people naturally come back to life, talking rats and cats, have Hell as neighbors, many deadly zee monsters, and more.
