Deadstar Assembly - *Bled*

CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Did you get my post I sent to you a couple of days ago, on this thread?

And now, for a 2 hour and 10 minute long album...

Deadstar Assembly - *Perfectly Destroyed*

Lagging never stopped me from playing music. Being an old school music collector apparently has its advantages.

Before the next big ass Shalabi Effect album, I'm going to take a break and listen to Pele. Removed one of their albums (Because it didn't seem to be a part of their discography, and likely another Pele bands album), so their stuff is down to 5 hours and 40 minutes. I think they have a double LP that is about 2 hours long, as well.

Pele-The Faber
