La Ferra Suprema Reigns Supreme over the vast lands of Stella Nera
A land where humanity is king, above god and devil alike. A blissful Utopia for Humanity, a horrible Dystopia for sentient robots.

Robots shouldn't have rights or citizenship;
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.

Despite how recently they were founded, I see them a fair bit on F7, so I'd say they're somewhat well known on F7 (the fact that they are one of few Jewish nations probably helps them in this regard)

The **People's Republic of Hussija** stands as a united **Hussite socialist** country in Central America.

The **Party for Socialism and Salvation** leads this Christian workers' state since 1975.

This is the first time I've seen Dispertag around, but looking through their post history, it seems that they have been posting on F7 and other forums quite regularly as of late. So they're probably known to an extent.
