They appear to be governed by a hereditary monarchy, with the current Emperor, Alex Nolyab, having taken power 5 years ago after the abdication of his father. His family's dynasty has lasted for nearly a million years, with Alex being said to be the smartest individual throughout the entire line. He is assigned approximately 500,000 administrative tasks every day as part of his position.

While Empyrius is in reality an autocratic dictatorship, this does not translate into brutality or heavy-handed suppression, said designation only appearing as an afterthought.

A major weapon in their arsenal is the so-called "reverse bomb", which causes an entire universe to collapse upon itself before exploding and destroying everything within. It derives its name from the fact that it initially creates an implosion, rather than an explosion, which follows later.

Their military is operating very passively; most likely from both previous encounters of violence and from anticipation of what may be lying outside of their controlled space.

The Ritavian government is somewhat confusing, and certainly unique. It calls itself a "monarchy-republic", and due to its strict social stratification, members of the royal family hold "every superior government role".

Catharism managed not only to get a foothold in Occitania but spread throughout neighbouring regions. Also, they had a gay empress once, which I must say isn't good for any royal dynasty as far as legacy is concerned. Also,

they almost got the whole Napoleon treatment when the Emperor's own daughter pulled an *omae wa mou shindeiru* on him. On a related note, they had a *Bloodless Revolution* though I argue that the emperor died violently quite after.

Idk, Prussia had Freddy the Overrated and that certainly wasn't "bad" for their legacy. If anything, it was *fabulously good*.

Anyway, While Harold Godwinson did get hit in the eye with an arrow, he did not in fact die, only fleeing North. For some thirty years, the House of Godwin clashed with William the Conqueror and his children, eventually taking back London and "thwarting the Normanish ethelmen" in 1092.

Ritavia seems to be a monarchy with a very strict class system in place which influences daily life and interaction all based on noble houses and seemingly religion.

They speak a language which is basically Catalan with a splash of English. There are a handful of Cantelese language excerpts available, and I recognised *Banara Kingal* and *Aus Nobile* that are, correct me if I'm wrong, from English (the non-French, non-Latin parts of it), being from *King* and *House*, respectively. The Aristocracy also spoke English, or at least some sort of dialect of English, before this Cantelo English became extinct in the 1700s.
