“ **Esparmuran wrote:**

Heatwave - Devin Townsend Project

If you dislike country music, this will be the only song of said genre you will like.

I tend to avoid being "that guy" who disses an entire genre, just because what is most heard is a lot of shit, because I'm always certain I will eventually find something within the genre I like.

Of course, there are the genre's that are harder for me to find something I'll actually like, and I don't search them much because of it, but I still like to be open to all genre's.

Devin Townsend Project will be one of my main metal focuses. I just need to get around to it.

Wumpscut - *Turns Off Pain (Recommended Version)*

CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
