I also want an independent Palestinian state, but I don't think its sustainable. I can only hope for a viable and sustainable long term solution that grants Palestinians there long-deserved rights to life and promotes regional stability.

We have mistakenly believed in reconciliation with Transselania and a peaceful unification. However, that is no longer possible. We declare the abolishment of the Unification Committee and recognize Transselania as an independent country. The idea of "one realm, two languages" has already been wiped from our minds.

the bipolar realm of selania never ceases to amuse

*Intended as the second ship of a new class of battlecruisers for the United States Navy. The Lexingtons were initially envisioned as a response to the Japanese Kongō-class, but would undergo drastic redesigns following the emergence of the powerful "fast battleship" HMS Hood. In 1922, the six Lexingtons under construction were halted pending the outcome of the Washington Naval Conference. Constellation herself would be scrapped, but her sisters Lexington and Saratoga would be converted into some of the Navy's first aircraft carriers, serving valiantly in the war against Japan two decades after their conception.*
