AN has managed to establish stunningly pretty biosphere reserves, where beautiful butterflies can be found. That can also mean that AN has a progressive stance towards the environment, or is actually aware enough about the tourism and research potentials from establishing nature parks.

Their primary banner suggests a country where the environment and the landmarks there are beautiful. It also suggests a country where a significant majority of citizens are Muslims.

All NS Stats are canon.

Oh, and I guess you can make up anything else about this nation, like geography and such, based on your own imagination. I don't really plan on writing lore on this nation, at least for now.

First off, that banner is one incredible, detailed piece of art.

I'd say it's a society primarily dominated by socialist and/or leninist views set in a Steampunk era. You can see clearly that the main focus lies probably in acquiring technological advancements with the help of the collective, with an almost cult like fervor. Cant really say much about the two planes showing organic matter (food?) and the cosmos, maybe riches to exploit in the sky?

Life is suffering.

They use the very outdated Windows Vista, and they have great taste in media (particularly anime, and presumably waifus).
