A big ole snap.

Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.

I'm going to guess it's from the perspective of a person who's just encountered one of their golden foxes - slight surprise (and possibly fear) on both sides.

With the power of glitchwave technology the government keeps a close eye on the populace. For security reasons of course.

Hi, it's been a while. If you're seeing this then it means what I'm working on is not quite done yet. You can still read my old stuff but it's probably not canon anymore. I'll try to get something up soon. It may or may not involve wizards.

No offense, but you got it way off. It is actually a picture of Bengali freedom fighters during the 1971 Liberation war. Although I can see why you interpreted it as the above.

No primary banner but it shifts around, so... I would say that the very first thing I saw was a couple of smokestacks of the factories, so.... Oh Gawd, the pollutions?
