Forgive me for sounding odd, but the flag above me makes me think of a sci-fi Finland.

The Russian Empire came back.

BN: Do not say technocracy.

We are free to believe that this is the century of authority, a century tending to the right, a Fascist century. If the XIXth century was the century of the individual (liberalism implies individualism) we are free to believe that this is the "collective" century, and therefore the century of the State.
