I guess making the factbooks website doesn't pay the bills.

2289 A.D.

In the early 21st century Siberia was struck by a massive asteroid that brought untold devastation and the collapse of almost every government. An alien virus, capable of mutating its victims, was brought to Earth as well. Eastern Europe, Siberia, China and countless other regions fell to the mutant horde. Europe became a medieval landscape ruled by feudal lords. The Middle East unified into a single Sultanate over time and entered a golden age wherein they have learned to co-exist with mutants. The Americas, which have lost contact with the old world, have turned into a Mad Max hellhole.

The time has come to make yet another nation. You'll probably recognize me.

That their world seems to be born out of an apocalyptic event, when a meteor with an alien virus crashed in Earth, and wiped out large swaths of population, and now, a new system has arisen out of the ashes, which also is eerily similar to the old medieval system in a way.

That their a global Technocratic National Syndicalist Commonwealth that is lead by a supercomputer. It's left ambiguous but it's 99.9% confirmed that William Dudley Pelley and his ideas were the main architect of the SC's ideology and structure.

According to an as-of-now Outdated Factbook, Imperatrix Akatsuki, current Head of State of Hinodia, was highly influenced by the German Culture -which is where her mother is from- and was tutored in Berlin in the later years of her childhood. Her reign bears the name Kōka (Crimson Song), which is what her postmortem name will be.

The Central Bank's primary objective is to ensure Anglomir's currency, the Kronig, remains stable. To accomplish this, the Central Banks endeavors to establish and implement monetary policy, regulate and maintain the smooth payment system, and supervise lower banks in the country.
