"So... I've got few complaints about this guy in terms of sentient rights and generalized outlook, but I'm not too keen on this guy's religious objectives. It comes across as one step forward, two steps back. Yes, he's fine with folks who are currently non-muslim in his country, but I can see the intended end result of his efforts. No group is superior to another, everybody has a viewpoint to offer. To treat one group as ascendant is to deny the value of those others, and that can only lead to stagnation." -Kal'Shazzar

Governor Arken Mercer

Wrote a response just a while ago:

“
His desire to turn the world into a boring and personality-less collective will not be accepted and will be resisted heavily by the Fatherland and amongst other civilizations joined in a coalition against his mechanical tyranny of seeking to destroy what makes the universe, a colorful and fascinating with so many races and ideas that have yet to be discovered. I wish the Paramount to end this grey expansion. I seek to avoid the worst. Overall my assessment is negative.

Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.

"That's one long ass title, I forgot to mention. Anyways, I'm cool with the lad; though I'm more keen on wondering what the point of him actually is. I mean, he claims to be strong and honorable, and survived something called the 'test of the heart' which means touching a cheap stone that I could wear as a necklace, but how come you didn't seem to lash out at the guerillas and slaughter them all at 21 years old? Surely, they were against the state, and I'm not sure why you'd be that close to them afterwards. If I were within the pack, I'd treat my hostages how I like. But what demands would I have to begin with...? the Heavy update for Team Fortress 2 sounds good... we've been waiting too bloody long for that. Or actually, how about we stop making you an incompetent leader for fucking up the only war you lead!? You can kill a beast, but you can't bring yourself to tear down a revolution with the crazy technology you have!? Some warrior you are... hmph."
