What happens when you cross anime powers and overpowered leaders with furrries, all written by a bored Homestuck fan with too much time? Well, you get Rumei. A multiethnic, FT republic with both might and magic that let it conquer the entire Orion Arm.

A 7.6 (this is probably outdated but I can't do the calculations rn) (Tier 9, Level 6, Type 9) according to [this index](#). Come to The Orion, we got [CULTURE](#) and [FURRIES](#)

Show Recommendation: Cobra Kai. It is very, very good.

"Just to make things clear for him... we are not allied with Rapture, we just have some common enemies, like an oppressive bratocracy, ruled by a cruel tyrant. So it's highly unlikely that we ever will raise our arms against The First King of Corpses. And I will not fight him, unless, he wants to spar with me... or goes to a tournament of Battle Royal style, where it's free for all.

Either way, I hope he realizes, that I have made those entanglements with Rapture to remove some of the risks for Skyhooked and get access to some profitable trade routes, not to mention possibility to influence them culturally and help them to abandon some of their morally questionable practices. Yes, by joining Mercer's crusade I've killed a few birds with one stone for Skyhooked. We fought a tyrant, and we reduced probability of being attacked by Rapture. And the sooner he realizes that, the better.
