Forgets That he Lives in a Generation

We live in a generation.

The Sith Empire is a force of dominance, an authoritarian state forged from militarism, slavery and the dark side of the Force. United under a single Empress, her Dark Council and by the Empire's Wrath, ruled by the Force-sensitive members of the Sith Order and supported by countless loyal citizens, the Empire forsakes the freedoms offered by the Republic in favor of strength and order. Aiming to take revenge on the Republic for its exile centuries ago, the Sith Empire will stop at nothing to become the greatest power in the galaxy.

Pretty sure Venezuela did this first - albeit for different reasons...

A hundred years after the end of the Great War, the world is a completely different place. In the East lies the Asian Socialist Federation, a rogue state built upon the blood and skulls of the bourgeois. In the west, lies the Pantocrate - a totalitarian empire led by mystics hellbent on creating a superhuman race...

Where moderates?

Cool bug unwritten lore facts with FR: they were never to begin with (except 43-49, though, a bit too nice. Allowing Nono Germans to be in charge of Teutonia, before giving it to soviets, as the Prussian SSR)
