Not really planning to use this nation for F7 posting and RP, I just did a small makeover for its new role.

Terrifying eye-like symbol with runes underneath it? In that color scheme? Kinda scary looking to me.

Looking through their policies left me with a considerably more positive impression. So... don't judge a book by its cover, I guess.

Greater Catarapania is a firm-sf PMT nation with a quasi-atompunk tech base.

Used to post as the nation "Theris Carencia," until I screwed up badly enough to want to make another nation and try again. Protip: letting AI run your economy doesn't give them any rights, it just makes you a socialist.

PMT/Early FT - Decopunk. Zitragrad is a crowned republic in a planet somewhere else in the universe. The formerly wartorn nation keeps a facade of normalcy and order while enjoying the societal and cultural decadence that marks the new Roaring Twenties. The paranoid authoritarian government tries its best to uphold order in the face of uncertainty, while its people want nothing more than a breathing space.
