Part of the reason for my posting here is because I don't see nearly enough Youtube links in this thread, so I do my part to fix that.

And I stopped posting YouTube links after my Favorites broke, and then never felt like going back to regularly posting links really. But even when I posted links like crazy I never got any Telegrams.

Maybe.

With longer albums I should start doing it again. By the time I get a YouTube link up for half these soundtrack songs the songs over.

At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Mass Effect 3 Soundtrack-Cris Velasco and Sascha Dikiciyan-The Ardat Yakshi

Part of the reason for my posting here is because I don't see nearly enough Youtube links in this thread, so I do my part to fix that.

[In Flames - Only for the Weak](#)

When I'm listening to music on Youtube I usually post links (well, in the old threads I did, only just now getting around to posting in this incarnation). However, for the most part, I don't listen to music that way as I just play it from my computer (I used to have about twenty hours of songs from some CDs of mine on here but as this computer is now very elderly it's on a data stick so I have been a bit lazy and haven't listened to much music lately). That said, I found my current song anyway.

[90 Light Years From the Sun - The Mesh \(with Skat the Axeman\)](#)

Which became just before I put the link in...

[All The Young Girls Love Alice - Elton John](#)

That won't last long as I am going to be so it's going to be... White Wedding - Billy Idol
