Earlier Hylian society was monolatrous, with them worshipping only a single goddess. Over time, more deities were adopted into their pantheon.

They are not *a* Crusader State, they are **the** Crusader State. The definite article you might say.

Unlike irl in which Crusader States were glorified fiefdoms, the Alfbading Levant is a fully functioning nation-state.

Coryan: They are far more technologically advanced than they claim to be. The fact that what seems to be their *standard* cruiser is a super-weapon in it's own right, that alone puts them far into OP FFT territory, not FT.

The *Astro Imperialis*, a sapient network of megacomputers powered by a collapsing star, is thought to be responsible for noticeable changes to history — not just by editing sources, but by literally warping reality in order to change the events of the past.

An alternate history version of China in which the alliance between the Kuomintang and the Communist Party never broke down, eventually resulting in a federalized, democratic China. Though one of the world's strongest economies and an emerging superpower, China continues to suffer from high rates of income inequality, an overreaching and sometimes corrupt government, and cultural issues that continue to persist despite the efforts of many reformers over the decades. Most factbooks are still an active WIP.

That 'three' refers to groups. I don't think three individuals can manage to accidentally supply natives with tech and animals from the 1200s. Thanks for pointing that out though.

The Frisian kingdom, while being a *de jure* elective monarchy, is still very much influenced by conventional feudalistic styles of governance. Progress in social development, if any, remains managed or limited. Then again, it was the 11th century, so you wouldn't really hold your breath on the Frisian elite delivering genuine social progress. Just give them a few more centuries I guess.

The era of the Sky (3150 BC - 2900 BC). Alongside the Era of Chaos, they form the Literate Period (if i'm not misreading anything). The Hylians, which had a nomadic nature at this point, started to seek refuge somewhere else. Some remained nomadic in the Hyrule Ridge. By then, the God of Horses, Malanya, had been incorporated into the Hylian Pantheon, creating a division within the Hylian ethnicity that would eventually form the Stable organisation.
