Practically unknown, and becoming only slightly known now that they have settled on a flag.

Not very well known.

It's that time again: how many times you have seen someone ≠ how well-known they are. Friendly reminder.

Pretty well known on several forums. Helps they're the only nation with a
Kangaroo flag.

I've had this flag since the second month of Frisemark existing, so nope.

A new nation so not well known

La Ferra Suprema Reigns Supreme over the vast lands of Stella Nera
A land where humanity is king, above god and devil alike. A blissful Utopia for Humanity, a horrible Dystopia for sentient robots.

Robots shouldn't have rights or citizenship;
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.
