There is an entire slave-caste geared SPECIFICALLY towards being food for the psionically advanced citizenry. Due to the requirement of cognitive-nutritive value of the Feed-Thralls, said thralls also happen to be the most cognitively advanced and sentient of the thralls. Ye gods... they're deliberately KEPT smart enough to understand what's coming...

Despite being impressively massive, the Caleshan "Landcarriers" have a chassis made of Carbon fiber...something that probably lowers the sheer weight of the things. As raw supplies that that have Carbon are gratuitously used to make these mobile bases, fossil fuels were ditched in favor of alternative energy sources

Several things I never bothered to look into before(at least in detail) which are pretty surprising.They exist on an enormous island in the middle of the atlantic which is awesome For trade. They have a male to female ratio of 1 to 6. And they have cat girls. Pretty neat nation that would probably shake up every ones ethics and trade routes

European males are not equal under the law, most notably not being allowed to hold credit, land, or positions of power but are technically considered equals by Law 2098-b12.

Honestly I'm just confused. So American males are exempt from this? Or (western)Russian? Or any white not from Europe? And what about their spouses? Couldn't they just get around that restriction by funneling property and wealth through their wives? And why are they considered equal when fundamentally they're treated as an underclass? Not even concerning myself with the ethics of it all; I'm confused about the practicality.

It was one of those laws that everyone wanted but then got outdated but still kept on paper. And yes it would apply to americans seeing as they came from europe. Also yes they could funnel it through their wives but that in itself would open up a lot of legal redtape .As far as being "equal" but treated different prehaps you should take a look at american history and all your question will be answered lol

Ilitu was functionally preceded by Tantù, the Great Goddess who Beckons, after a deal in which four deities agreed to cooperate towards each other's interests... but that deal fell through in SEVERAL grand fashions, and it went all 'Big Brother' levels of backstabbing until eventually Ilitu managed to stab backs best.
