Wow! Global warming really did a number on the world didn't it? Anyways, they are set in the future year of 102019 CE where "Inkpolitia" reins as the top superpower presiding over the North and South American continents with a total population of 543.419.068 and a GDP of 184 trillion ikallars (though not sure it's equivalent in US dollars).

Their nation is multiple, so I will do something on Euarabia

It appears that Euarabia is split between the Republican "New Euarabia" and the conservative Monarchist "Euarabia". A daring move for the Arabic stand in, seeing how Republicanism wouldn't come around in irl Arabia until the Colonial Empires of France and England partitioned the Arabs.

However, it's understandable why New Euarabia exists, as the leader of Euarabia is a cruel and heartless man who bashes the poor, uses propaganda and jail cells to further his god-like image, and overall reminds me of a Monarchist Arab Stalin.

The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. In the middle of the Russian Revolution, Bastameia declared it's independence while aiding Poland in the Polish-Soviet War. During WW2, the Axis and the Soviet Union both invaded the territory of Bastarnea. This devastated the country, with it losing a third of it's population. After the war, though, Bastarnea was integrated into the USSR as the Bastameian Soviet Republic.

Teienshi was at one point a British Crown Colony, with it being given to the British from Japan on January 5, 1859, and remained that way until 1952 when it was basically considered independent. It also had the opportunity to reunite with Japan but voted against it because of the Japanese treatment of Teienshi during its occupation in WW2

Their ML Party calls itself "Libertarian Marxist" for some unknown reason. The choice of label does not seem very Leninist, but it is what it is. Their right-wing underground terrorist organisation supports slavery because it was founded by plantation owners I assume, and perhaps also because its members are contrarian to the max.
