[Panama - Always \(Classixx Remix\)](#)

Your nation is like a son. What it does right is your merit, as well as what it does wrong is your fault. When you praise it, be lucid and avoid exaggeration. Praising it too much can make it indolent. On the other hand, when you criticize it, be harsh, but do not ridicule it. Do your best to improve it, not through derision or disdain, but through good examples and dedication.

So, finished 2 albums by these guys so far today. Which is about the same as 4 short albums, based on how long all these albums are.

There's a fair amount of industrial metal elements, along with some avant-garde stuff as well.

This is a band I refuse to call post-metal. Doesn't fit what I consider to be post-metal.

And if you can find it anywhere, try Citizen Erased by Muse.

Neurosis-Burning Flesh in Year of Pig

It sounded a bit industrial-doom-sludge from what I can categorize.

It is a good feeling discovering bands I like from people saying those bands suck. ☐

I don't know enough about post-metal to say if it is or isn't post-

metal, but it's definitely a mixture of industrial/sludge/doom. Wikipedia is sometimes off about genres like Metallum can be.

[Muse - Supremacy](#)

Muse is full of surprises.
