Queen- Yeah

Shortest track I've ever listened to. Like 5 seconds only. ☐

And Queen- Untitled Track

This is the longest track I've ever listened to. It's also the weirdest.

Huh, didn't realize Queen had so long of a song. I think the longest one I actually listened through the whole thing was about 49 minutes {Jesu song}, and before that it was like, 29 minutes or so. The rest of my long ones are anywhere from 10 minutes to 25. I know there's some that are about 70 to 75, but I've never actually fully listened to them....

Rishloo-Freaks & Animals.

It's not like other songs though. Most of it is very quiet and have put it up to high volume to listen to, it has not a lot of lyrics and the lyrics that exist are weird. It's comprised of mostly wind chimes, and synthesisers. It's their closing track to their final album, but I think it's a weird song to close one of the most legendary bands of all time.

Queen- Now I'm Here

Queen- Now I'm Here

Sounds like they tried something different, which is all good to me. Weird may be just considered good to me, based on what I'm listening to that has some strange vocals ☐

Rishloo-Disco Biscuit.

It's fun trying to sing along to the end of this song.....especially when you can't sing very good.

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
