Eaux - Blue Tunnel

Somehow sounds like a remix of CHVRCHES - Recover. But good.

All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

A Tribe Called Quest - What?

Hmm...leaning towards a 10/10 for this. I have no complaints with this album; it's an epic, chill, artistic album. Excellent rapping, great samples, production overall is flawless IMO.

EDIT: Last track just came on; definitely 10/10 for this album.

The Low End Theory!!!!!! My favorite hip hop album! Glad that you liked it. And yeah, "Scenario" is an epic posse cut.

Feel free to TG me or to propose constructing embassies, which is something entirely different. Anything related to strategy is my thing.

I've heard that A Tribe Called Quest is "Revolutionary", so not surprised you like it so much.

De La Soul is supposed to be good, too, I believe. Did you get all of their albums when they had their entire discography free? I can't remember.
