It kind of reminds me of the flag of the Second Spanish Republic but with syndicalist imagery from Kaiserreich, so I guess syndicalist Spain.

I should really play Kaiserreich one of these days, didn't know my flag resembled any of theirs, haha.

real big alt-syndicalism vibes thanks to the gear, but also rhodesia because of the pickaxe and juche because of the symbols' orientations, so maybe syndicalist juche rhodesia? pretty interesting alt-hist even if i know the concept is completely different from the nation itself.

Alright then. Germany used Swastikas for their symbol of fascism and yet i use an Iron Cross which is also a medal that could have been obtained from World War I when Germany was a Monarchy. You see what i mean?

Also i have not a lot of info about it so i am just spilling my opinion.

I mean sure, but it doesnt really matter in the end. The fact that it was once used in a connotation doesn't mean anything if it's no longer the popular one. The cross was a symbol long before the christians used it, and yet its just expected that people will see that symbol and think 'Jesus'. A symbol is only decided by it's most popular user after all.
