[Secret Chiefs 3-Mera Pyar Shalimar](#)

Interesting singing on this one. Most of the time they don't have much singing, if any at all.

Sigur Ros-I Gaer

My favorite of theirs that isn't on any album except a compilation album of previously unreleased stuff.

Sigur Ros-Von

Another favorite from the previously unreleased stuff. This song has the same name as their first album and a song from their first album, but sounds absolutely nothing like anything from that album.

Sigur Ros-Hafsol

Same deal as the previous one, where it has the same name as a song from their first album but sounds nothing like anything from that album.

Quite the monoculture here, I see. That's one way to get to 500 pages quicker...

Schwarzblut - *Ein Schatten*

“ CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Schwarzblut - *Heimfahrt*

It's just that it's more fun if a variety of people are posting the songs they're listening to. Personally I prefer the variety generated that way.

Makes sense. But when I'm up at the time I was, listening to music, it doesn't work so well
