Despite Last Action Hero being an absolutely terrible movie, the soundtrack was good.

[Hanzel und Gretyl - Third Reich from the Sun](#)

It's horrifying how almost no youtube uploaders understand basic grammar, and thus never use lowercase letters for words such as "the" or "of." It forces me to waste a moment of my time instead of being able to copy and paste without any effort.

The only reason I'm not too lazy is because when I'm going through new music, I'm also adding it to favorites on YouTube so I use YouTube, too.

I haven't really listened to Philip Glass yet but I liked this stuff I heard on this nature video my dad showed me.

His music is something that someone has to have a special taste for.

I am listening to Piano Phase by Steve Reich.

People who don't just get bored and fall asleep to ambient music, for example?

Not that falling to sleep to ambient music is technically a bad thing.

I quite love ambient music if it is done right. A LOT of ambient music is boring as hell, but a lot of it is great, too. And when I say ambient

I mean drone, ambient, ambient electronic, ambient post-rock (Yes, ambient rock exists), minimalistic, and so on.
