"Hmm, yeah, I'm pretty sure we wouldn't get along at all. I find the technology and unusual workings behind Kal'Shazzar interesting, but I doubt I could have a conversation with him, much less even ask him a question. His hatred for Nazis has already been noted. Even though, I would argue that we aren't as terrible as the old Deutschland, I don't think he'd be willing to look past that. Especially considering we still keep in touch with some traditions. All in all, I would say that my opinion on him is mostly neutral, though leaning towards hostile out of the fact that my life would most likely be in danger if we were to meet."

"What are you?  
I do not despise your accomplishments. You have strength, the both of you. But it is not strength of martial ability. It is some kind of curse, I know it, it must be. You are cursed things toying with a people. What else could you be? You appear to your people like marionettes in a trader of trinkets' retinue. You ride a chariot that belches fire and strikes down your enemies at a word. You hold the strength to make your people rulers, but you do not. What is it all for, if not that?

It must be a deception. It must be."

Abilities are more important than whether a person is male or female, and Ari has proven herself time and time again; I am devastated to hear how her father died, and that his final illness lasted an excruciating five months--oddly, that is the amount of time the world has been plunged into the chaos of this virus--and I hope he has found eternal peace and forgiveness.

Though a strong warlord, he did commit atrocities in his life, as we all have, and I am certainly no better. Ari should know that being a Caller and striving to unify the Tribes is something she will do very well, and that we have very high hopes for her future."

*"There seems to be quite a few kings around these days. Mind you, this Random character seems to be a man of his time, apparently undergoing a transition to capitalism from feudalism. This certainly distinguishes him from the other relics who claim that their family has some sort of special authority over the people. Still, all things must end, and many monarchs did not survive the transition into a capitalist system, and those that did tended to find their power greatly reduced. We will see what the future holds for King Random and the people of East Wolven."*

While the idea of a hereditary head of state is repulsive, and the King himself has had a number of poor policies, I cannot deny his effectiveness as a leader in spirit for the country. Nevertheless, one should tell him to curb his country's aggressive, imperialist actions against other nations."

"Why do you disguise yourself as a child to your people? Surely they do not respect you if you look so young. But you are not young, you are their elder by eight hundred years. That is a life too long to be natural in any way. And why do you disdain the right of a leader to command their people? There is no better than the heir of a leader to take their place, time has proven this. And why do you despise success? If a man gathers many riches to himself by the labor of his hands, is not he and he alone entitled to its use? Are not his stores and his home his own?

I can not understand you. More so, I do not want to understand you. A conqueror who hates the name? A leader who believes one thing and says another? An elder who takes the face of a child? A ruler whose immortality ensures they will never learn to pass down their knowledge? I cannot find the words."

She's 800 years old? Yeah, not believing that BS, especially if she looks like in her teen years at best, and if I remember correctly I saw the letter combo "loli" used in some of the different pages, which makes it sound like an argument which some certain undesirable society's element would make. Hey, if you are as old as you say, then at least try to rock some of the older looks - face and body full with wrinkles, being barely able to move without a freaking walking stick, suffering from dementia and/or alzheimer, being blind or just having a worse eyesight, having frailer bones and less physical strength, etc. At least you nailed down your short height - people do shrink in size significantly from their 60s, as the spine becomes crooked and other

stuff happens.

*Once again, I am not surprised that revolution was brought by someone who had the fortune to study overseas and gain access to class consciousness, because those who they aim to liberate usually don't have the same fortune, even if they visit libraries regularly. Fleeing to Manchuria, and then reestablishing her power in Japan after WWI? Makes sense, as according to our pre-WW2 info, Japan wasn't the best place for commies.*

*As for the politics... She has a few redeemable qualities, in fact I am surprised by how many of points I agree with her, but some things still stand out - like how he supports both pacifism and strong military. Are you using it only for self defense or something? Also, warmongering is quite cool, although I do agree that it needs to be replaced by peace periods at times. Also, her being an anti-fascist will surely be at odds at The Party's stances, especially the historical ones, although we find ourselves at odds with most of the fash too as we consider them unoriginal.*

*Mature in public yet childish in private? This phrase could be used to describe so many leaders, sadly. I guess that they indeed have to keep up a face in front of public, but their repressed side reveals in private. While I do believe that she thinks that her intents are for the best, some of them are bound to turn into VERY GOOD IDEAS from which there will be more pain than gain. Can't comment on her taste buds, as I can't taste food for sh\*t. That said, her being made fun for her height isn't something I would mind - after all, the future is for the tallies, and disliking those taller than your 148cm sounds quite petty, not gonna lie.*

*So she is basically the one who calls the clans and leaders of various other groups to meetings? Well, that indeed sounds like a pretty interesting position. At least she can replenish the forces more easily. That said, I do like her approach with the neighbors - they must be put down in their place, no matter how similar they should be, and if you can do some expansionism in the process, then why not... She is also a religious, and while we probably wouldn't get on theology, I can commend someone who has not fallen into the pit of atheism yet.*

*It sounds that there are indeed if not exotic, then at least not unusual*

traditions of birth for the newborns there. Looking up to father despite him not being there - that's indeed something, although who doesn't love someone who partakes part in conflicts and conquests, bringing the name and glory of their people to the world? Either way, it seems that she had got a fair share of responsibilities and things to learn at such a young age, but it seems that all those horse riding classes have been fruitful at least. Huh, and it seems that she has upped the stakes with that raid - while it got her the fame which was necessary to convince the council after the defense in which she performed rather in a mediocre way, I think that it might escalate in a cycle of revenge in future, as one misstep could doom not only her, but the rest of her nation. I am not sure if to wish her luck to perform perfectly or not...
