monkey 2033 had a grand story when he took on the anti monke coalition's personnel watching from a hotel

he rammed an APC into the front of the hotel and took several AMC personnel and regular people with him into the grave

Shinjou declares it's now a people's 4th reich. The navy reports strange sights in the sea, possibly eisterian vessels. a new terrorist movement has been terrorising southern paxana and other smaller countries. The LNS callhiem has been ordered to attack any vessels coming into libertalia waters

Why yes, we are infact a free democratic nation that tries to protect others and have more flaws than united st- can we just please have your Oil and gold already?

2032 had a gift from the celestials who created the multiverse, giving him celestial abilities like invariability and strength, he was the first monkey celestial, he was worshiped by the monkeys, he then left the earth. monkey 2031, 2030, 2029 were sent by the followers to find him.

Go to 2031

Monkey 2029 became a couch.

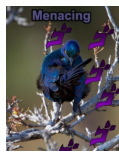

A human sat on the couch and accidentally spilled acid.

2027 had found remnants of 2032, he found them while travelling to mars, he brought it to the exacts same Antarctic base that 3986 used to research stuff before his stroke. He found out that 3986 was still alive a well so he destroyed the usb he was connected to, then monkeys 2026, 2025, and 2024 found him and killed him.

Monke 2026 regretted what he had done to monke 2027, so he ran out of the base only to find out that there was no solid ground outside. He fell into the water and froze.

2024 was regretful like 2026 so he took the research and called a helicopter to take him back home but the captian was 2011 so he purposely crashed the helicopter killing 2024, leaving 2023 to stand there in shock

Monkey 2017, in sheer shock after finding out his murderous rampage was a datura-induced psychotic episode, killed himself.

Monkey 1986, having seen what he saw, couldn't recover from it at all. His trauma affected his job at the steel mill, resulting in a freak accident which lead to him getting third-degree burns on accident. He survived, but he was not only disfigured, he also could not be looked at by his kin. After years of isolation, he snapped. Swearing to 2017, he would kill just as many monkeys 2017 did, yet while taking Datura, he accidentally overdosed, dying of a heart attack at 28.
