The Future Sound Of London - Yage

CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

That's a good one.

The GW2 one is also by Jeremy Soule. ['Fear not this night'](#) is the main piece.

Jeremy Soule is good. Thanks.

I still need to listen to them more thoroughly.

[Mum-Blessed Brambles](#)

Also enjoy the lyrics in this one.....because they are totally random.

Clinic - [Tomorrow](#)

I especially like the "message" of the lyrics. I'm pretty sure they are pretty much about the hypocrisy of humans with animals. Like, how we think they are so "beautiful" yet we lock things like hamsters and turtles in cages for their whole lives. Mainly with turtles, who you know probably love to be out in the wild more. Domestic cats are a bit different. I'm too tired to explain what I mean completely.

And that song (their newer stuff) is drastically different then their older stuff. I personally like their older stuff more, but their newer stuff is good too.

[Mum-Slow Bicycle](#)

For example, I find this song to be fantastic.
