Monkey 3639 had a drinking contest with Alastair IV. Both ended up with alcohol poisoning and ended up in the emergency room; alas, Monkey 3639 was involved in a very bitter feud, and one of the ED nurses was on the other side of the feud; that nurse injected pure air into his bloodstream, triggering a fatal heart attack. Alastair survived and remained in the hospital for several days.

Don't use NS stats except for changes in economics, political freedoms, or civil rights which may eventually make their way into written canon if I get tired of worldbuilding.

Monkey 3622 realized that because of players skipping monkeys that we would actually have several hundred pages left. God II smote God I for smiting 3623 instead of 3622, then smote 3622 for knowing too much.
