Despite Soviet Post Punk saying war metal sucks, I like it. I

remembered his relentless criticism of the genre so I finally took the time to try war metal, and it's enjoyable.

I'm trying the challenge too. I hope this does not cause any lasting psychological dysfunctionality from the traumatic ordeal I am about to experience.

Hmm. I can go through this twice in a row, which is my standard test to determine if a song receives a positive rating. It seems Justin Bieber has finally become capable of making something decent.

It definitely is. I just...I can't take him seriously. I mean, I was listening to a clip of one of the songs earlier, and he was rapping on a freaking trap music-inspired track with FUTURE for God's sake...I just can't handle that.
