I have a theory that a collective brain-melting bomb has been dropped on F7 and its associated servers in the past 24 hours.

There was once a trend to have Parliamentary debate threads in N&RP, they quickly died out. The debates aren't even good, there is just an opening statement and no rebuttal

I never participated in it myself but it was basically a long-running RP thread

series where players were Senators for a made-up non-NS country and would form political parties, propose legislation, vote on it, etc.

It was called the NSG Senate because the idea was conceived in General, but all the threads actually *involving* the NSG Senate were here in F7.

The Senate actually lasted quite a while, doing a quick search it began in 2013 and ended in 2018.

And then it was 'revived' as the NS Parliament back in 2019 and there was a little kerfuffle with the mods because the mods moved the threads to F7 from P2TM (under the ruling that 'NSG Senate belonged in F7 and this is basically NSG Senate under a new name') but then the mods reversed the decision and allowed the NS Parliament in P2TM but the NS Parliament died last year, didn't last nearly as long as the NSG Senate did.

People asked who own server but not who is server or how is server 🙄.  
Also how is F7 server different then server of NS forums as a whole?

More informal and faster paced. Discord is basically just instant messaging.
