After going through all of Maybeshewill again, I can only see me probably owning one of the albums in its entirety...There's a lot with good aspects but I don't really like them enough throughout.

WHICH is why I'm going through these again, to remind myself which ones I actually truly care about owning. Partly why, anyway. But just to finalize my opinions on them. I've listened to so much post-rock now that some stuff I used to love isn't quite as exciting anymore now that I realize it isn't very original.

I will, eventually. I'm usually not in the mood for pop, and if I force myself to listen to something I usually dislike it, even if I would/should normally like it. So...Lord knows when I'll actually get around to going through the rest of them.
