A few weirdos stumbled upon some kind of time-traveling phone-booth and immediately went on a kidnapping spree throughout all of history and somehow this didn't cause the entirety of the universe to collapse into paradox-fire.

At some point in their history, an engineer fired a StarGun at a 'medium sized mountain', cutting a hole six meters wide through it. This was a problem, as apparently that mountain had an owner that didn't like the new hole in their property.

This grand, ever existing empire revolves around the worship of a large eldritch space leviathan. It has a thousands of races from a thousand worlds and it resembles a corpse, with a bloated body and trade routes of insects that slowly move out to consume what is around it. It has become entropy.

Very cool, I enjoyed reading it, as it is a very unique nation (if the term applies) I don't think i could have come up with myself.

Their nation has two major accents, relative to the north and south. The North is very clipped and precise, and apparently sacrifices any use of the letter H as a consonant. The south is actually places more emphasis on the H and sounds much more poetic and hipster.

Folks in Damstadt (Darmstadt?) talk like folks from the north, but do so in the tone of asshole bikers.

While the Sedentary Tribes are larger and more populated, Mobile Tribes have a bigger say in how things go by the virtue of their more risky lives. Which sounds *really* stupid tbh.

Germany is, uh, rather big in this world. Or, pardon me, the Holy Romish Riche. Which, may I say, is an incredibly cursed name. However, it's not unified- rather, the HRE HRR was forcibly reinstated by the French, the Danelaw, the Russians, and the Italians in order to prevent the formation of a unified German state.

They used big Germany to destroy big Germany.

Incorrect, though I can see why you'd derive that conclusion. Caleshan 'Influence' is not used in the form of dictating policy, so much as it is used as the nominal currency of the Caleshan barter system. Favors win favors.

1) They've completed a PT culture factbook out in the time I've thought about, mused over, procrastinated on, and outlined a PT culture factbook. Good on you for being far more productive than I'll ever be.

2) In the more mountainous regions of the Cosmic territory, it is common for people to at birth receive a spiritual song, or *vouthy*, commemorating their existence. These songs will often become like a second name for these people, thanks to their highly personal nature.

@Revolutionaire:

"I'm gonna be honest and say that this alt!history but with more aliens is a bit of a strange one for me. Outside of the Aliens, I was quite certain quite a few East Germans wanted to return to a complete whole instead of remaining in their shattered state, I honestly don't understand though why the leader of this nation Beatrix would continue to maintain her stance of division over reconciliation? Where's her infrastructure going to come from to support her war effort? Who is paying for all this ammunition? Where is this East Berlin Patriotism coming from? East Berlin didn't even exist for like what a few dozen years at best."

@Yoooper
