Dissecting Table - *Clear Up All*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

I dunno. I woke up about 6 times in 4 hours. Feels like the night should be over already.

I'm not sure if it is that, or if somewhere in my subconscious my

moms surgery that is today is on my mind more then it seems and it is keeping me awake, despite the fact the surgery isn't really THAT bad and as far as what is going on, it could be much worse.

Steelwing - The Illusion

This song is a good one, but overall this album is more boring than Katana or some other of these new heavy metal bands.
