Ignis States: "Imagine being blessed with running a state that has vast tracts of space, rich history and an impressive martial tradition associated with the entirety of the Orion Arm. An amazing opportunity, no? Now imagine throwing it all away like dear old Zen here.

I'm still flabbergasted that Ambrosia saw any redeeming qualities in you. Oh? You used to care about mother nature, huh? You enjoy murdering millions all the while shagging your palace servants? I don't even think you've passed primary school. You got blessed with a bunch of powers out of the universe's ass and now you think you're worth a dime? I'd promote bullying just to get people like you in line.

Every child with a dream seems to be getting god-like powers these days..."
- Victoria Hoffmeister

"I'm...with Victoria on this. A tyrant is a tyrant and you most certainly couldn't give a damn about your people. You're supposed to serve them, not the other way around. Why do you think you held that office in the first place?"
- Kali Fiore

Eien no Yorokobi: "Would you look at you? Adorable little creature, aren't you? You're even friendlier than Ambrosia was in the first year of her holding office. Unfortunately, Ambrosia's not as perky and cheery as she was back then but I can't blame her.

I do worry about your service to Aozora but if you've broken off from her, I trust that you'll be consistent with your thought process. We wouldn't want you to flip sides and suffer the consequences as the result.

Regardless, you're not that disagreeable, all things considered. In fact, I've got no qualms with you. If I may speak for Ambrosia on this occasion, I'd say you and her would get along splendidly."
- Rúna Skau

Platinia: "Sera was never an agreeable girl...Sorry! Song was stuck in my head. Had a catchy tune to it too! I'd apologise for Victoria's previous rant. When she's not a fan of someone, she doesn't hold back at all. If I'm being honest however, I did agree with her to some extent but no worries, I'll be more constructive.

I admire your charity. I truly do but it's in the best interests of every nation that you build up your people into a force that can fend for themselves. Putting Platinia's eggs in one basket isn't something I'd advise. Don't take this the wrong way, I don't doubt your power but wouldn't it be more satisfying to see your own people rise to the occasion and fend off any and all foes coming

their way? Instead of having just one beacon of hope in this universe? How about having millions of them?

I'd like you to consider what I have to say but at the end of the day, you do you."

The Third Duloch: "Magnificent! A man after my own heart! A being of pure power and energy! Filled with the vigour of a thousand suns! A testament to the greatest warriors of creation! While you cannot compare to my feline majesty, mein Fuhrquaad, you are indeed an individual worthy of my praise!

Look at you! The facial features of an Adonis. Oh, you make me swoon, mein Fuhrquaad! I would kill to have you serve by my side as I plan to rid the galaxy of undesirables. Know this! History will remember the righteous and you, my dear little industrious fellow, shall be recorded as a legend of our time. A champion of justice and purity! You are a...OW!"
-Salem

"Salem, you're going to shut up or I'll bury you alive, got it?"
- Ambrosia

Azur Deutschland: *"I'm not exactly sure of the existence of Sylvia. She and her sister live in this ivory tower of theirs, never knowing the plight of the working man. No one cares about how many sweets you love. Was that such a crucial piece of information to share?*

Not to mention you're triggering my fascist alarm. Who knew two innocent looking children were so full of hidden malice and bile? I'll ignore you for now but know that you might cross the line with me at any time..."
- Victoria

BN: You can pick from any one of my characters: Ambrosia, Rúna (Faces of Bloodshade), Victoria, Kali (Faces of Bloodshade).

You and your people always make this world and this place a much better and happier place, and I am all glad for that! I do hope Salem has been doing well too! I do love that black kitty! Can I pet you? Anyway, I am still positive on you as always! Hmm, I do know you, that is definite! Victoria as well, because I think I have seen you before, and I am positive on you too. Kali and Runa are the two people that I have only met now! I am quite positive on the both of you too! Kali has a lot of good points regarding the government, some of them in line with what the Valentians think personally, and Runa being a very, very capable person! I wonder if I could get a film featuring Kali inside. It would definitely make for a good movie night for me and the Valentians, haha! ^^ Ahh, yes, very positive on you all, which is of no surprise given the relationship between Bloodshade and the Valentians! Where are the death camps where those who go out of line get worked to death? Where are the terrors and mass killings to ensure stability? Call me a red fascist, but terrorizing and brutalizing the people is necessary for a truly successful society, trust me. Marxism isn't going to get you anywhere, it's about time to abandon such liberal ideas and go full on Nazbo- I mean, become more authoritative. Socially, Oomiya is far too progressive, for you need a theocratic absolute monarchy to be a truly successful state, regardless of what anarchist moderates like Marx or Lenin might say. "While I admire her background in magik-academia, she leads as if she was not educated at all. She speaks about how nations only survive through a loyal and faithful population, yet the biggest mistake empires throughout history make is treating people like statistics. Politics is much a social science as it is an art form, forever intertwining and changing as economies change with technology. She fails to calculate possible resentment - a growing fire that causes civil discourse. Her belligerence in short, will only isolate their empire further and further until they have no allies no galaxy of civilizations can fill. Amaranthinos needs to study further."

"Ey, your Majesty, whatcha think about us regular workin' burns? You got anything in that pretty little head o' yours for us working fucks? No? Eh, that's what I thought. Your bio reads like a sheet of satin. I'm half inclined to burn it, I don't trust a single thing on it. Don't try to change my mind, I'm already with the only lady I'll ever need. I can introduce 'er to you if you want. Her name's Madame. Madame l'Guillotine."

Ah, shit, my syndie side's showing again."

"If I'm going to be completely honest, Bertie is an insignificant man. That being said, I don't really see any reason to dislike him other than him being relatively rude. All in all, he just seems to vibe deep in space. In fact, a lonely station somewhere in the deepest parts of space sounds pretty serene, even if lonely. Would I care to visit him and his bar if I had the chance? Eh, probably not. I like to uphold authority, so with the whole lawless part, I'm not entirely sure if I would be welcomed with open arms."

Would you like some tea?

"Well, I've already given my opinion on the two twins from a political perspective. Again, I strongly oppose their support of fascism and Nazi power, and how they treated our ideological left-allies in their world's Soviet Union. I also reject their nationalist stance."

"Saying this, if we were to avoid politics for a while, I think we would get along quite well. For one, I am also rather fond of sweets, and I would love to share a pudding or parfait with them, as well as taste Azur's dessert specialties. We could make a small trio of violinists, or maybe I could play the Koto for you while you are on piano. We could even do cosplay together!"

It's a shame we are ideological enemies. I do hope someday you will change your ways and we can enjoy each other's companies. Well, all three of us are bound to live for many hundreds more years, so I am hopeful yet."
