Monkey 660 had done it. He had LIVED. As 660 stood over the rubble in his house he smiled as he realized his nuclear bunker worked. He searched an eventually found 684 in his box, almost dead. Next he went at sea and saved 693 from being stranded, and called 629 who agreed to be off break and join the newly form survivor squad. There was 1 problem. There was one other monkey who had lived past their number. 885. CURS_GRGE. To get 885 to not kill them they sacrificed 594 to him and sure enough 885 joined the team. Now to see if they could survive and save all of monkey kind

Tired of having to say this: The Kingdom of Voidstania is not a kingdom. It is a communist dictatorship with a weak democratic senate under the guise of a monarchy. Normal country stuff.

Also, NS stats and policies are not canon (Because I have a tendency to click the wrong options and give myself dumb policies)

Monkey 593 tried to join 660's survivor squad, and got so close, but then had a sudden heart attack.

Meanwhile monkey 721, who's immortal, decided to hang out with the survivor squad from time to time.

Monkey 592 gives the survivor squad a banana that is actually a grenade, and when Monkey 660 ate the banana, he exploded alive, killing the survivor squad and 592.

Monkey 591, finds monkey 1590's bunker, rushing to fix the bunker before he would die, after finishing the repairs in only 3 months, he would then stock the bunker fully with food and water, he enters the bunker and closes the large bulkhead. He then realises that in his rush to fix the bunker quickly he forgot to fix the oxygen line. In a rush, he runs to the lever that would turn on the emergency oxygen, but it fails to work, with 2 minutes left, he runs over to the S.O.S. lever, pulling it down, hoping somebody would save him before he dies, but nobody comes.

Ancient Troll-tec was discovered in March of 2021 but collapsed in November. The end of Ancient Troll-tec was due to a lack of support and a lack of resources. As a sufficient amount of trolling has been achieved throughout history, Ancient Troll-tec decided to end its operations. The end of Ancient Troll-tec was a sad day for many, but it is a necessary step for the future of trolling.
