He espouses inclusivity, a debilitating force which always leads to the decay of any group. Why elevate weaklings to the same standing as the strong? Why not take the natural, the scientific course, and purge useless dregs which contribute nothing to society besides of their draining influence upon resources that are much better needed by actual productive beings? For despite claiming to be such a brilliant scientist, Marcus fails to use clear logic in this racial regard, electing to refute established facts and instead promote an erroneous sense of equality amongst all species. Wow, that is a long name... Anyways, I find no quarrel with this figure personally speaking, however I think his policy of "no discrimination" and letting people live however they want will only lead to more problems than good results. Perhaps the government shouldn't be directly inspecting people, I agree with that in many ways, but people should certainly feel responsible for living a particular way which meshes well with the rest of society. Tis but Fascism masquerading as Revolutionary.

"For as much as these folk are Totally Not The Confederacy, much of the ideology Cassidy epitomizes it the logical conclusion of the faux-populist and faux-radical message of the Confederacy and neo-confederates. To drop a massive bomb of historical context, one of the plans brought before the Confederate Congress on the issue of industrializing to properly compete with the north was the utilization of black slaves in a system of central planning. A pseudo-automation of sorts except in the form of humans as commodity-property. A completely nonsensical concept that wouldn't have worked for numerous reasons. However, the Confederacy was the last stand of the dying southern aristocracy under the heel of the then-progressive force of industrial capitalism stomping out the final forces of slave-based despotism.

Point being, the Confederacy flirted with many left-wing ideals from anti-imperialism to the economic sector in *form* but always within the framework of an insincere white supremacist position that punished the poor white yeoman and crushed the heels of the black slave in *practice*. The true revolutionaries were always the Radical Republicans and the slaves who fought for the security of free labor over bondage and future socialist leaders in China, Vietnam, the Soviet Union, and especially Fidel Castro in Cuba absolutely acknowledged that.

And while Cassidy's state is not the Confederacy, it represents an ideological victory of the Confederacy's ideas and the strengthening of those ideas centuries after.

What this 'Democratic Party' of Captain-General of Cassidy represents is a continuation of this principle. Sure the party has abandoned support for slavery and obviously centers in this epoch of faux-populism and faux-support for the proletariat has directed its orientation towards that of Syndicalism. That is, the power of trade unions. And this is where we Socialists must understand that trade unions, while powerful allies, are not inherently allies. The Nazis and Falangists allied with chauvinist trade unions. The Democrats in their own history aligned with chauvinist trade unions. And this Syndicalism within Cassidy's Democratic Party is presented as a socialistic programme, it is as socialist as the Falangist and Nazi platforms. This Syndicalism centers in its character white supremacist chauvinism and the maintenance of Confederate imagery.

Cassidy is the model Fascist masquerading as a revolutionary and so is his incarnation of the Democratic Party. It gained power by overthrowing a socialist government on charges I call into doubt. It has implemented mass-sterilizations and deportation of non-white citizens. It has committed real actual genocide. It is the duty of all Socialists, Progressives, and Communists to stand against this state

of Hitlerite character!

"It is interesting to see one such as yourself, who has caused so much pain and misery, who continues to cause so much pain and misery, and who will most likely *continue* to be a cause of pain and misery, and yet who remains so upstanding within one's own society as to almost be considered its leader. Certainly, this misstep of faith must be due to the fact that- so far as I can tell- you claim sole access to your divinity, who is a worm. I cannot abide by such a paradox of morality, however, and must therefore assume either your divinity is evil- certainly possible, though one would then wonder why they are worthy of being worshipped- or, you lie, and you are evil- so far as I can tell, the more likely option. Given this, and given that I refuse to support any alternative truths you might lie your way into telling, I see no cause not to denounce you for what you are- an evil, murderous, *eel* of a woman who uses the naïve trust you've earned to further your own ambitions and desires, regardless of the lives, cultures and peoples lost. Truly, you are a most *despicable* woman, incapable of change and unworthy of mercy."

"Mermaids? Well, whatever, I've seen weirder.

Anyways, I'm all for 'no gods, no masters'. So, I naturally oppose this 'Goddess' for obvious reasons. Honestly, I'm actually kind of glad that she is getting too lazy to rule the country, which has allowed for the development of a parliament.

I mean, I still oppose the Church AND parliamentary 'representatives', but they're still better than being a thrall to a god. But hey, I guess mermaids don't have the will to liberty that European humans have.

Still, it is interesting to see a realm where God and Church are at odds with each other."

No, it is not the Confederate States of America. No, it's not the South either. SU stands for 'States and Unions'. The right acronym is RCAS. Please read the Factbook.

"As far as I know, his "No gods no masters" applies only to white people... This is something we don't understand and never will, cause in good ol' Skyhooked race doesn't matter. Still, Pickett has many right ideas about freedom, equality and technology. And if we set politics aside... I think, this lil' guy just decided not to pick a path of warrior and instead turn to other things. Nothing bad about it, path of warrior is not for everyone. Because if he did, size wouldn't matter with correct tactics.

I mean, this little guy can make up for his lack of size and strength with agility and more stealthy and cunning approach. He'd make an ideal assassin, able to hide in smallest crevices and unexpected places, while his small profile would make him a hard target. Besides, it's easier to suddenly disappear from sight and then suddenly attack again. Or ambush bullies when they are alone and off guard, and use biomechanics to beat em' up easily wherever it hurts the most. Maybe combine with a non-lethal trap, so dude slips or trips over, and then gets beaten up in painful spots."-Shawn Bjornson

his lifestyle to be decadent and his creation to be entirely pointless. If ~~all~~ that he does is consume drugs and alcohol instead of being well, a true fighting machine for the right client, which isn't me doubting the fact that he is, it's just that I don't find it practical to only draw blades to free the alleged innocents from tyranny.
