Elton John - Goodbye Yellow Brick Road
From *Elton John One Night Only - The Greatest Hits* (2000)

*So goodbye yellow brick road
Where the dogs of society howl
You can't plant me in your penthouse
I'm going back to my plough*

*Back to the howling old owl in the woods
Hunting the horny back toad
Oh I've finally decided my future lies
Beyond the yellow brick road*

Male, 23, Indonesian

Major partner in free association with [Faraby](#) (that's my puppet/secondary nation IRL).

[Factbook](#)

Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. It's an opinion. Impossible is not a declaration. It's a dare. Impossible is potential. Impossible is temporary. Impossible is nothing.

-Muhammad Ali

Napalm Death - *Everyday Pox*

*Too far removed
To indulge or divulge
Extend my hand
And your flesh crawls
Touched by asinine mongrels
You're rife with everyday pox*

*Suspect foreign bodies encroaching
On your space - they obstruct,
You detest, you obstruct,
They detest*

*Unwashed interferers multiplying
Out of range - They obstruct,
You detest, you obstruct,
They detest*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

The Who - Magic Bus

Final track on Live at Leeds. And yes, I'm talking about the original album from 1970, not one of those re-releases or deluxe editions.
