Psychopathic Terror - *Vengeance In Black*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

LOTS OF BASS. I love my speakers....I wouldn't mind better, but these have been such an improvement from the one's I had about a year 1/2 ago (I think), which were cheap \$10 ones. They didn't have any bass at all. Having a subwoofer helps a lot, too...

Mayberry- Rascal Flatts

Yes I am a beautiful bisexual woman. One that's worth getting to know. I know my self worth and you can't bring me down. I'm a happy pessimist who loves life. I've got a wonderful girlfriend who loves me. Don't tell me I'm wrong, don't say I'm cheap. Don't call me a Dyke, Lezzie, or Gay. Call me that and at least say it to my face. But call me what I am: Beautiful, Gorgeous and Free.
