everyone knows that quote, "I know not what weapons World War Three will be fought, but World War Four will be fought with sticks and stones," but in a way it's optimistic and inspiring because it suggests that even after destroying civilization and returning to the stone age we'll still be sufficiently globalized and bellicose to have another world war right then and there

From what I got out of the Dragonforce song I listened to (Don't remember which), they came off as show offish and trying too hard to be cool and technical. It just irritated me instead. Didn't help the vocalist got on my nerves.
